

THE X COLLAB

VOLUME 01/BUE

The X Collab was established as a catalyst to create inter-institutional multidisciplinary collaborations. Our goal from the beginning was to bring creative students from universities all over the United Kingdom in an effort to create artwork in this current uninspiring climate. Our vision is to provide exposure, opportunity for networking and a means of approaching the making of artwork in an alternative manner.

We initially planned for 20-30 participants to take part in the project, hoping to attract interest from 4-5 universities from across the UK. However, the project grew much bigger than we anticipated and we concluded with 152 submissions from a huge number of universities all over the country. The response has been amazing and in times where it is so difficult to connect with others in person, it has been so inspiring to see creatives from all different backgrounds and disciplines come together and collaborate to produce art.

CREATE

SWAP

REIMAGINE

The following publication showcases the amazing creatives that have taken part in our first project and the collaborative works they have produced according to our given theme 'Blue'.

JUST GIVE ME SOME SPACE AND TIME

In physics, spacetime is any mathematical model which fuses the three dimensions of space and the one dimension of time into a single four-dimensional manifold. The fabric of space-time is a conceptual model combining the three dimensions of space with the fourth dimension of time.

The 95 was a brand new approach to runner cushioning by being the first-ever shoe to also feature the visible Air unit in the forefoot. ... With its unique colorway, Swoosh placement, and dual air-powered cushioning system, the unapologetically brash Air Max 95 quickly progressed into a youth culture icon.

THERE IS A RAINBOW WITHIN YOU

Your hand curls around mine, and I flinch
283 days without a connection like this
and I crave to unwrap you immediately
to see you at your worst, and your best

I want to peel away your layers
discovering your weak points as I go
finding secret upon secret upon secret, worry upon worry
and all the things that make your heart skip

As I strip away your perfect skin
and watch the colours trickle out, one by one
the green of your favourite hoody
the orange of your favourite book cover

You are your favourite colour
but you are also all the other colours combined
there is yellow in your happy days
and grey in your bad

The blue of overpriced shots on nights out
and the red of your favourite blanket
the brown of your eyes
and the white of your smile

Each one forms a memory
which strikes you down some days
and lifts you up on others
a collection of your life so far

Underneath your skin I trace the boundaries
of the Cities you have lived
the Countries you have visted
and the places you have loved

I find your University City hidden in your heart
underneath the degree mounted on your wall
between the club pictures on your phone
behind the experiences that shaped you

The friendships you cherish flutter in the breeze
the group chats that keep your phone buzzing
and the comfort of being together
sharing all the good times in full colour

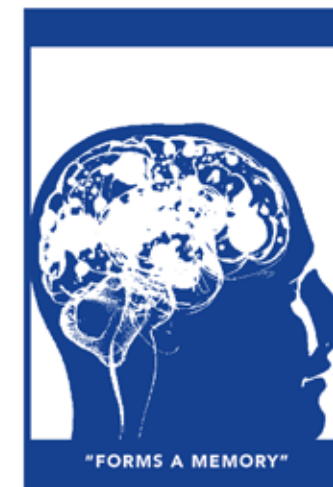

I crave the touch of those delicate fingers
interlinking perfectly with mine
as we fight to see all the colours at once
combining to make beautiful artwork
that represents our life

We would like to take this opportunity to give a massive thank you to each and every one of the participants that have made this project possible. The X Collab started out as an idea to bring artists together in difficult times and it has flourished into a community of creatives all from different backgrounds and artistic disciplines making inspiring work together. We hope that each and every one of the participants that have taken part have enjoyed the experience and found it up-building. We are excited to embark on more creative journeys with future projects similar to this one, hoping to push the boundaries and expand on this community of creative people that has begun to form. More information about future projects will be published via our instagram @x.collab and via our website www.thexcollab.com. If you missed this one but would like to get involved in the future we would encourage you to follow us to stay updated.
