Lizzie Lovell

Lizzie Lovell is a Textile Designer-Maker based in Kent. Lizzie studied on the BA (Hons) Textile Design degree course at UCA Farnham from 2018-2021.

Trained in a print specialism, her wide-ranging interests span mark-making, surface texture, painting, sculpture and material science. Lizzie takes inspiration from her surroundings, experiences, memories, and her own photography.

Lizzie enjoys taking an experimental, cross-disciplinary and holistic approach to her work, merging narrative, aesthetic and process to produce textile outcomes for a variety of contexts, including fashion, textiles, art and design.

Lizzie possesses a strong understanding of fabrics, materials and colour theory. Her use of traditional printing techniques, including hand-dyeing, open-mesh and silk-screen printing make each screen print completely unique. Lizzie is passionate about material, design and innovation.

Lizzie is open to collaborative opportunities and projects.
